
Manufacturing The Highest Quality Plumbing Vent Products Since 1908.

We are a third generation family owned business with a solid reputation for delivering the highest quality products, on time, for a very competitive price. Our vent costs more, until our customers realize their time savings for installation, years of guaranteed reliability and the tiny difference in total cost of a new or replacement roofing system.

Weather Resistant Plumbing Vent Flanges

Our best selling weather resistant design provides a three quarter inch air space between the vent pipe and the base flange to allow air to circulate freely. The free flow of air resists frost from forming to plug the vent.

Style 1SM Regular Pitch Plumbing Vent Flanges

Sizes to fit 2", 3", 4" and 5" inside vent pipe diameter.

1/12 to 11/12 (10°- 45°) pitch adjustment.

Style 11SM High Pitch Plumbing Vent Flanges

The same weather and frost resistant features built in to our models designed for high pitch roofing applications.

Sizes to fit 2", 3", 4" and 5" inside vent pipe diameter.

5/12 to 15/12 (20°- 60°) pitch adjustment.

Style 1FM Flat Plumbing Vent Flanges

Weather and frost resistant design features built in to our model for commercial and residential flat roof applications. All seams are hand soldered to prevent water penetration.

Sizes to fit 2", 3", 4", 5" and 6" inside vent pipe diameter.

Flat roofs only.
